

## 1 SINGLE REPORT "PREVIEW"

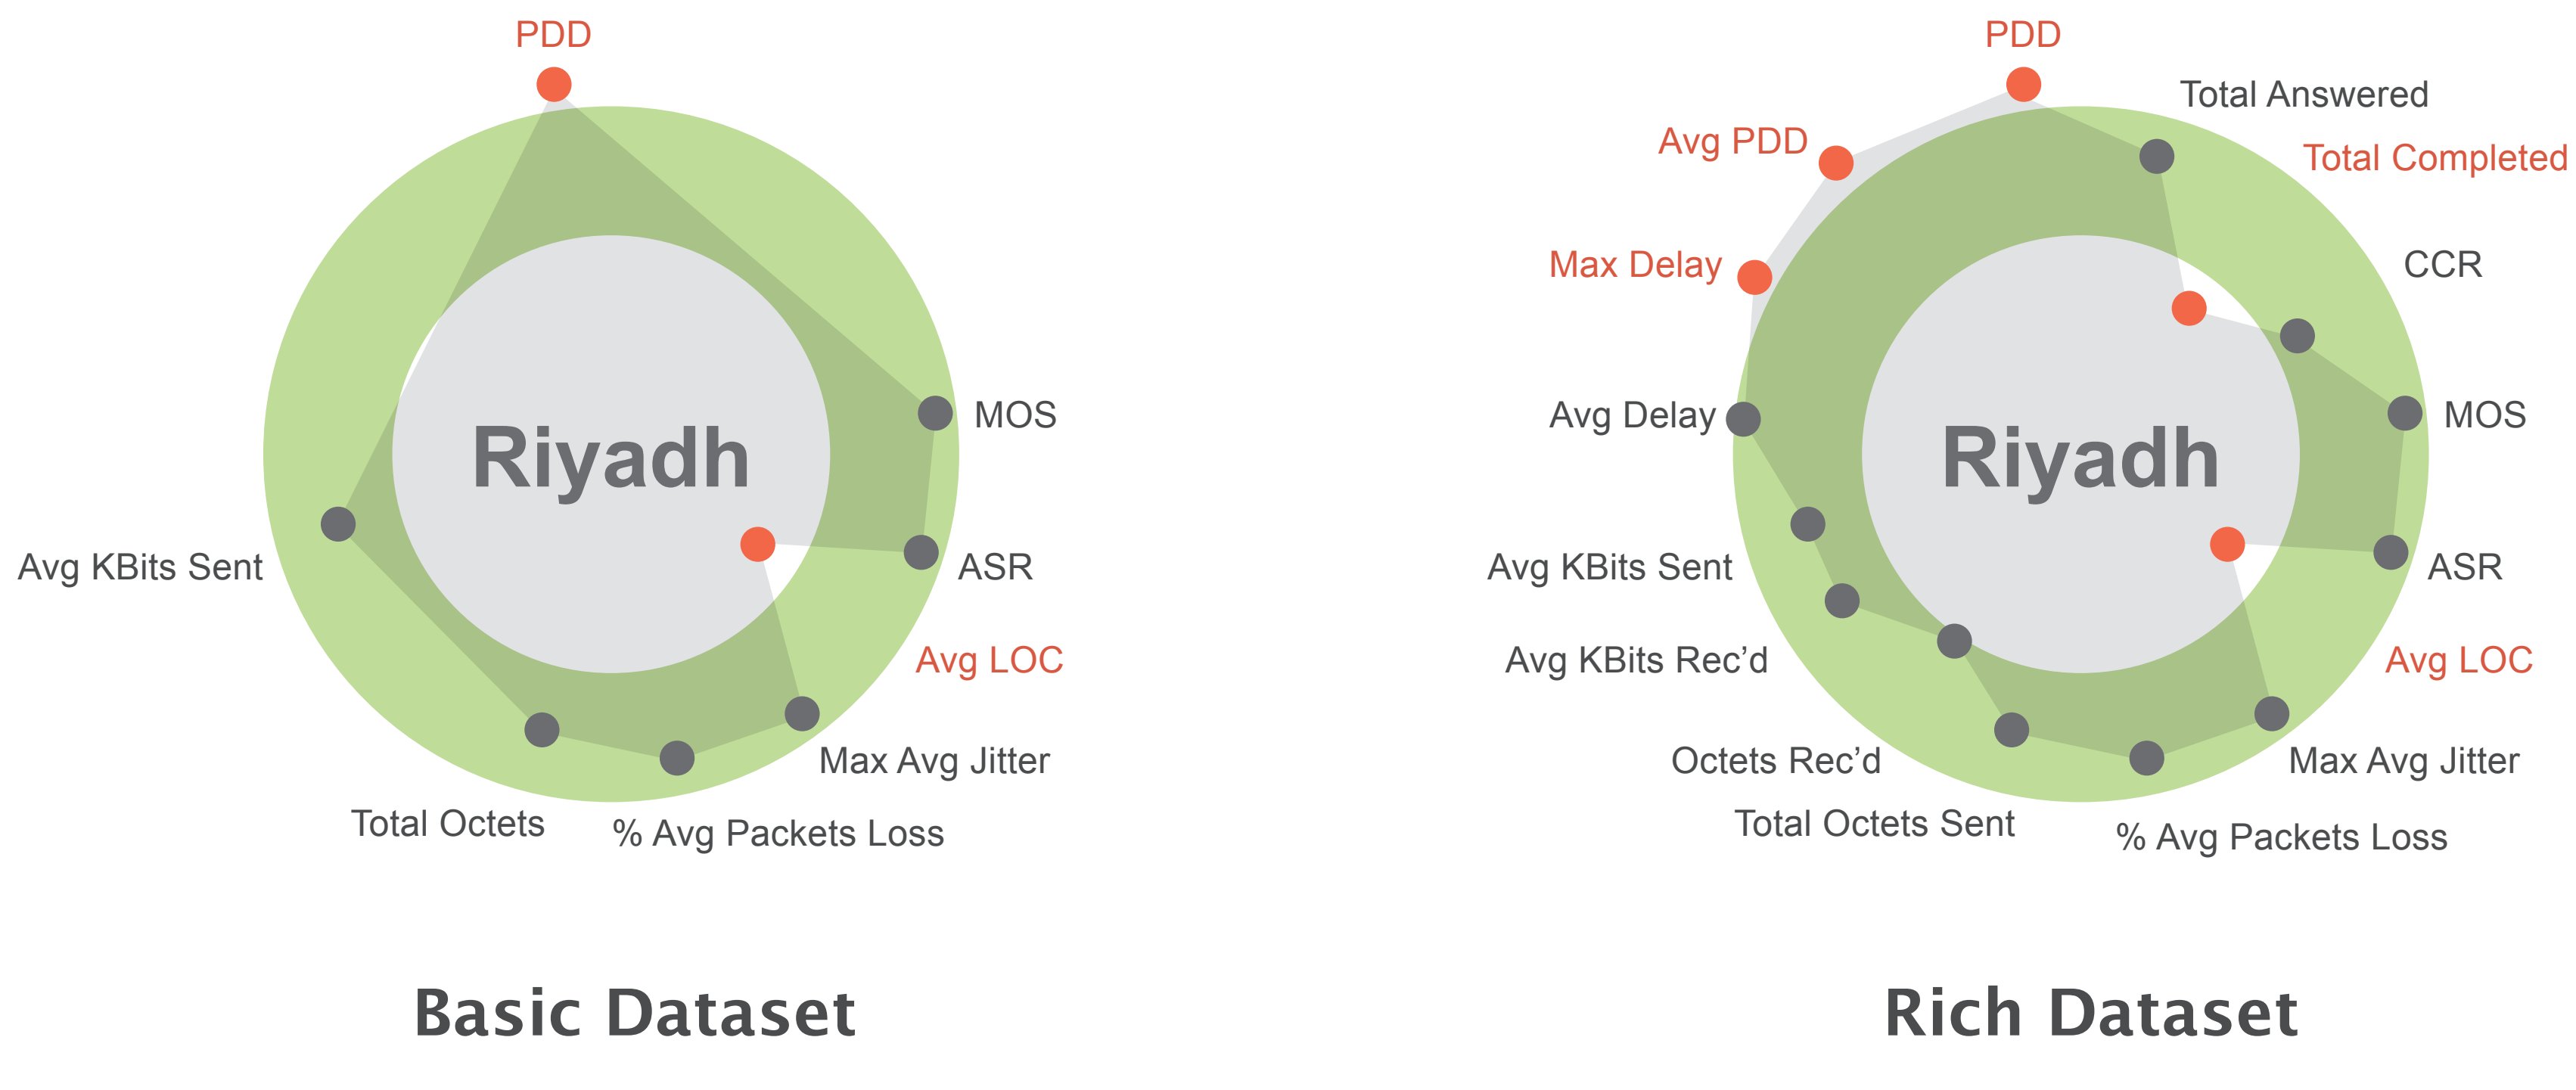

Quickly navigate between the different reports in a Report Group.

Previews allow you to understand which reports deserve more time

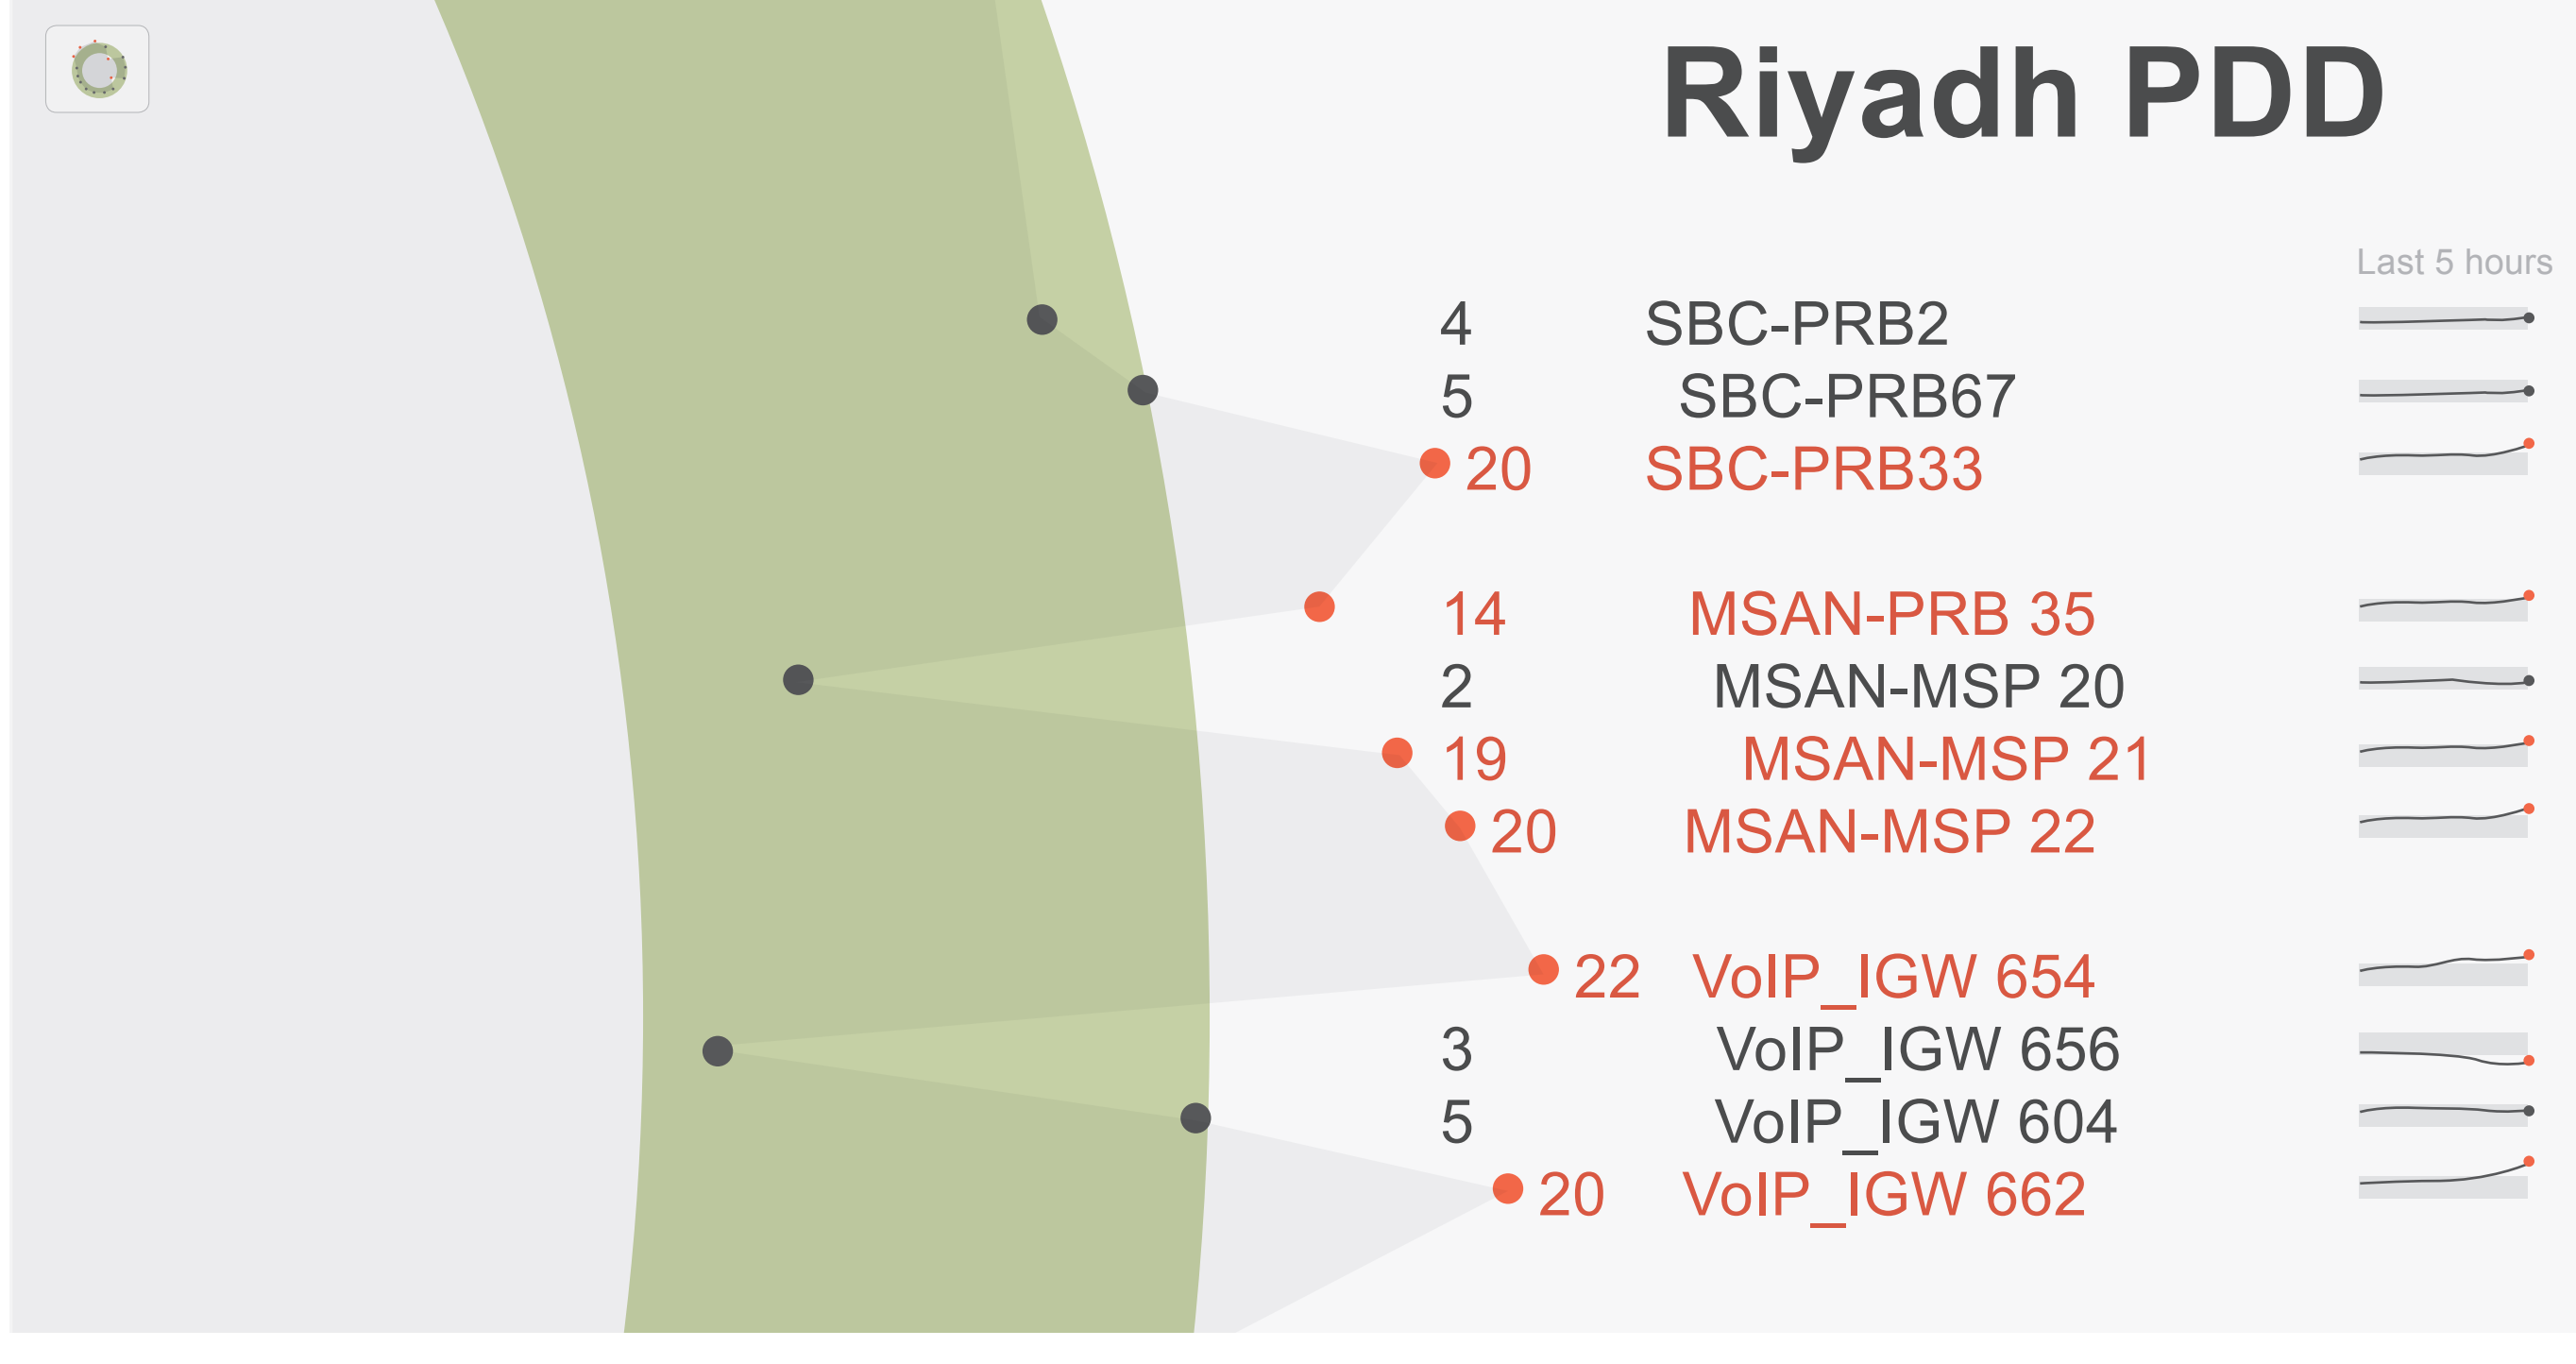

## 2 SPIDER CHARTS

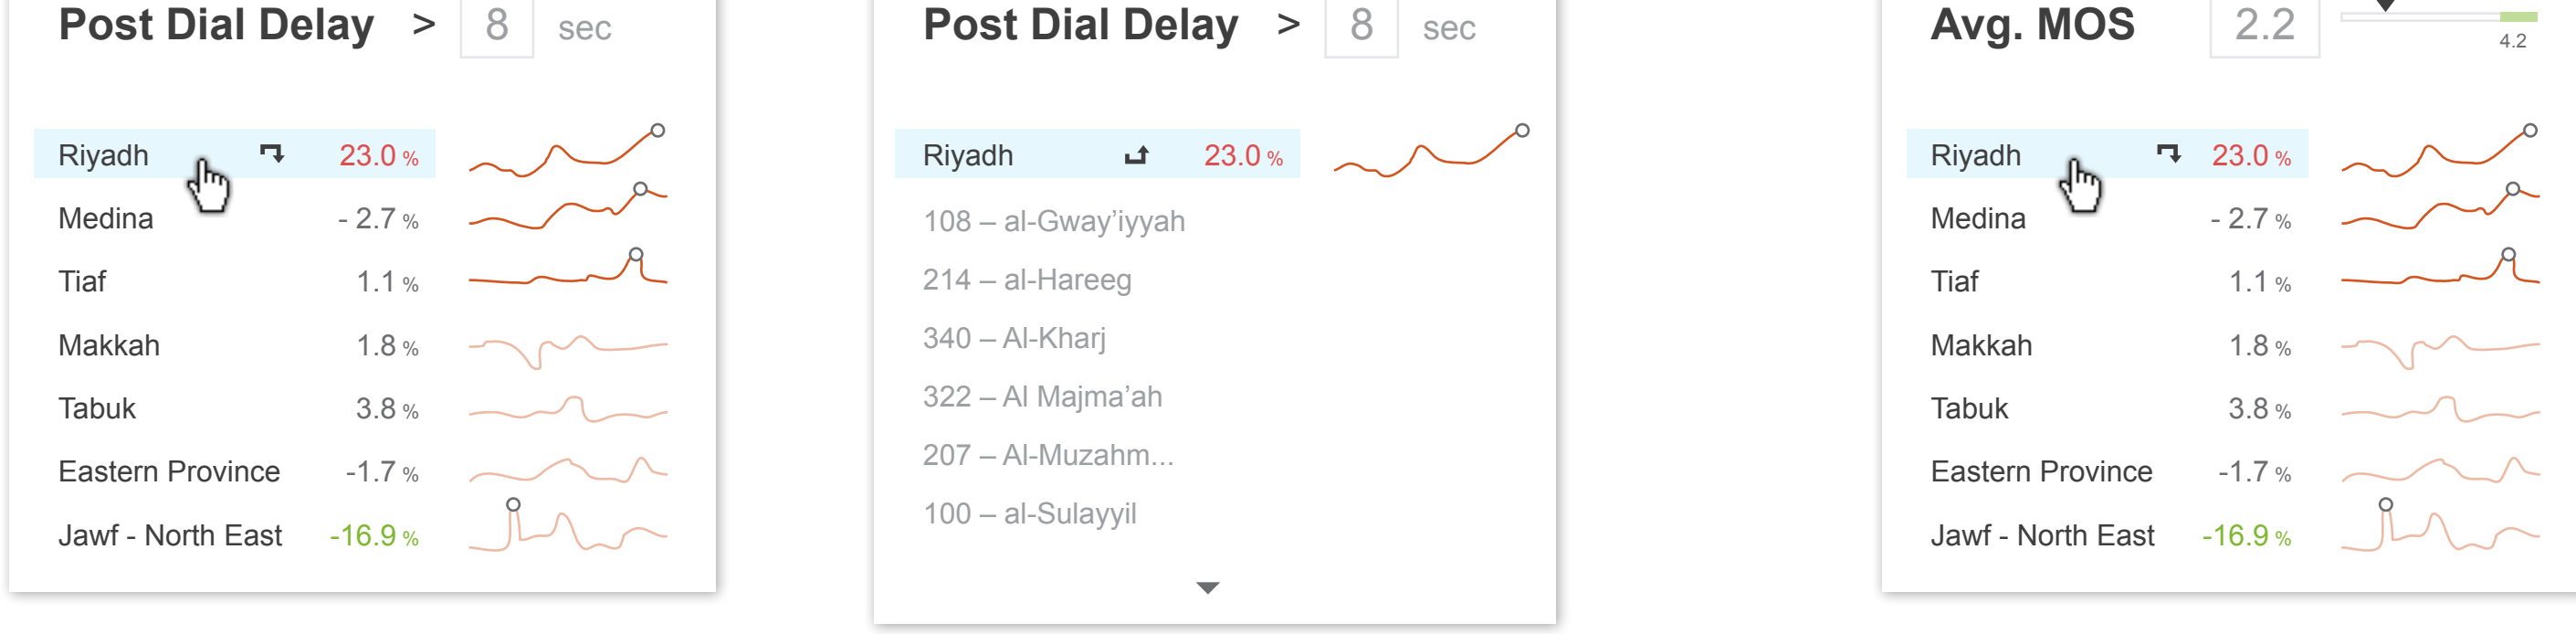

FLEXIBLE IN DATASET SIZE  
PATTERN RECOGNITION

ZOOM IN TO SEE MORE DETAILED REGION DATA

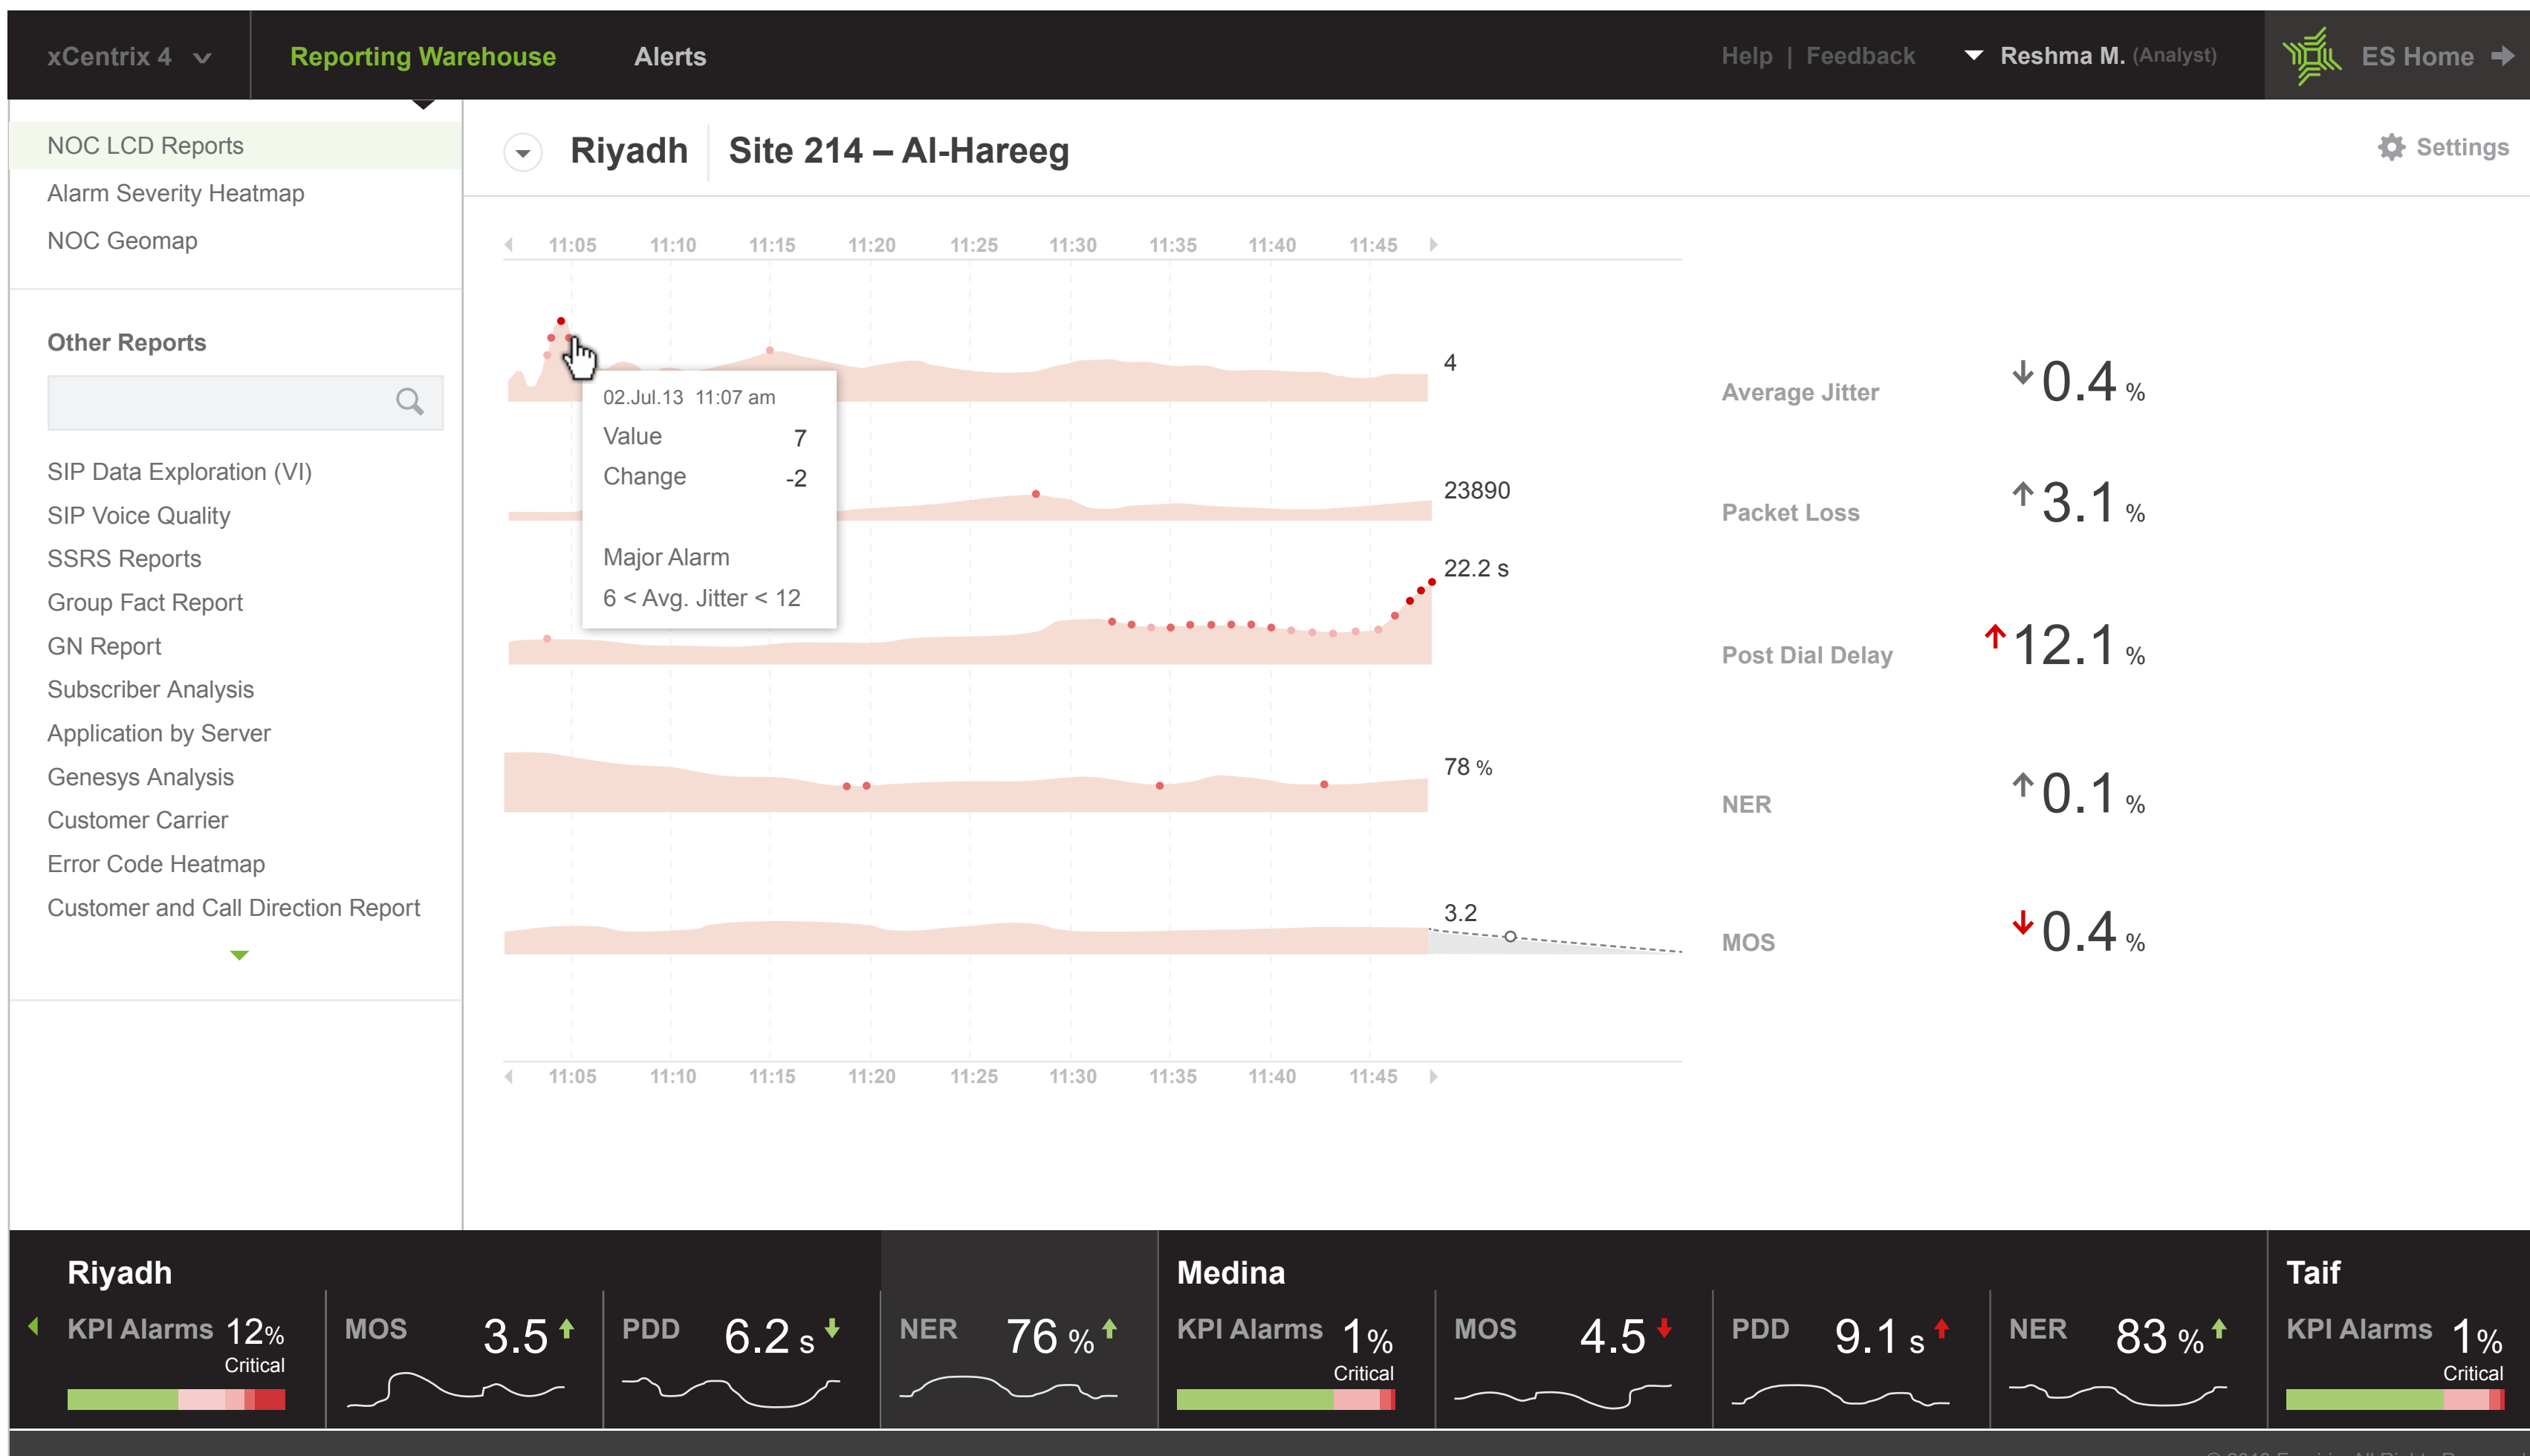

## 3 SCORE CARD FOR KEY METRICS

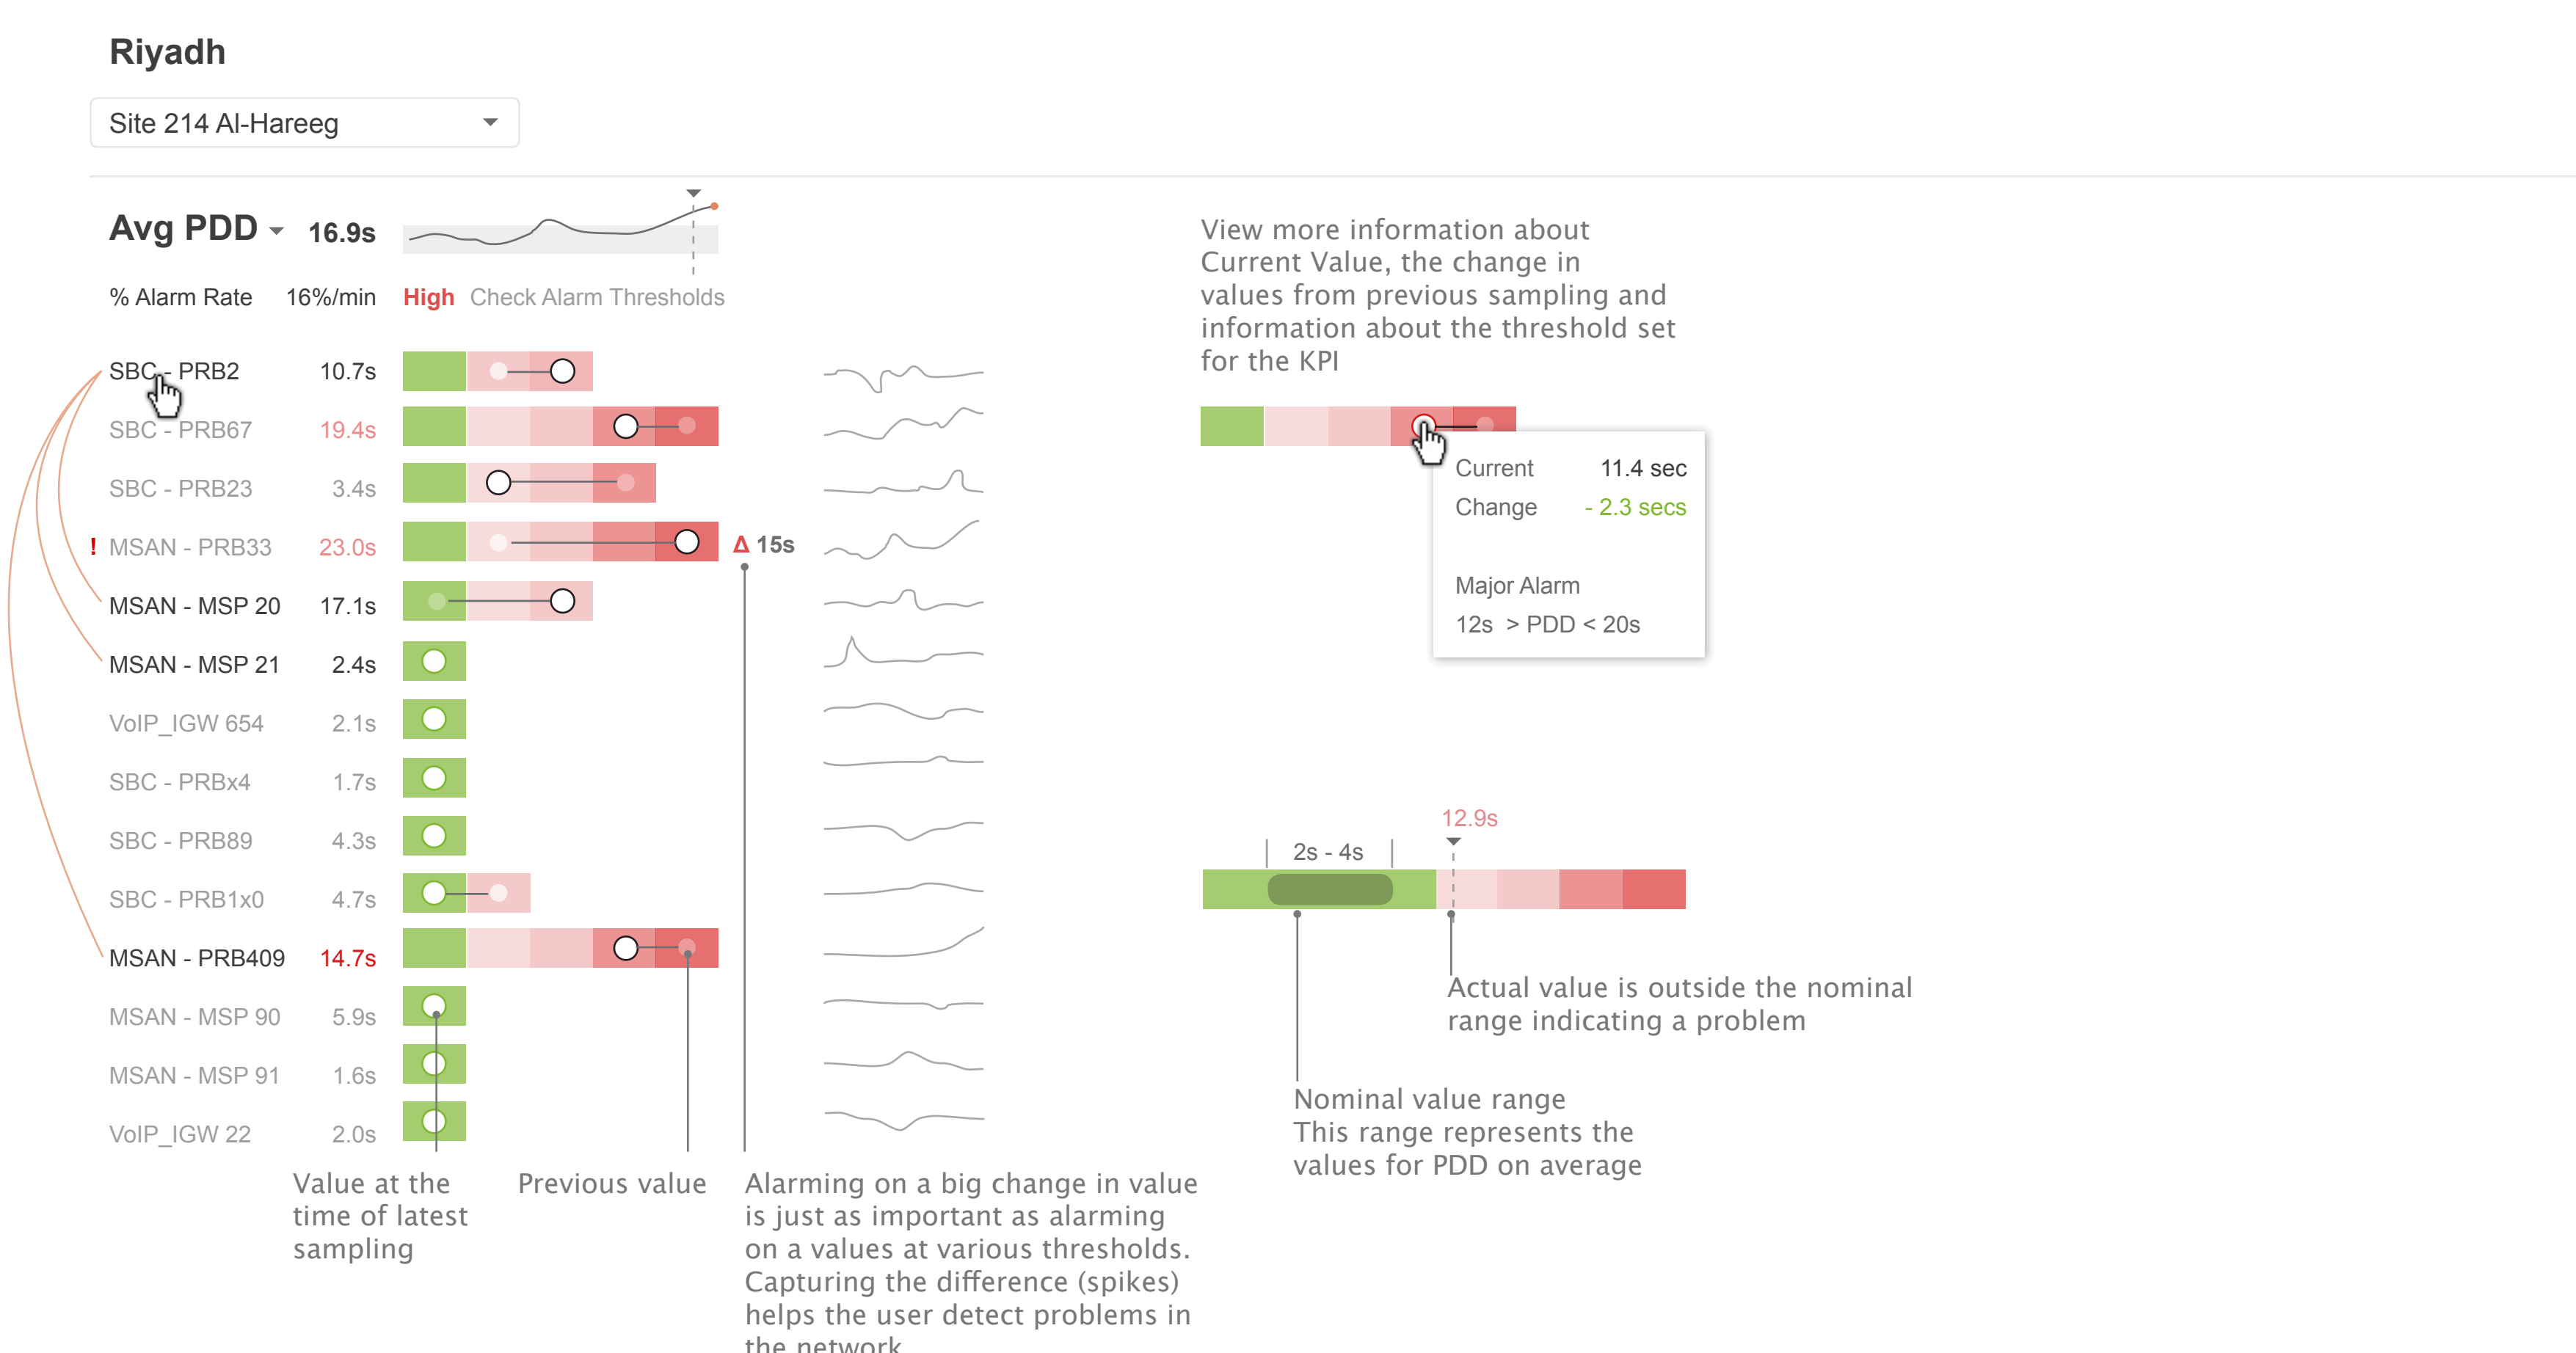

## 4 SELECTING REPORTS IN CONTEXT

Persistent KPI Ticker provides constant updates.

## 5 REGION/SITE SERVICE MODEL - ALARMOGRAPH

Probes on the network that are connected. For instance, an SBC (Session Border Controller) talks to several Multi Service Application Nodes in a network. These lines show those connections when user hovers over the managed object.

## 6 ALARMOGRAPHS BY REGION

## 7 ALARMOGRAPHS OVER TIME
